Profile

Passionate Full-Stack Developer with 7+ years at C5 Alliance Jersey Ltd, specialising in the .NET stack and front-end frameworks. Known for producing high-quality, robust, and testable code. Expertise in C#, .NET, JavaScript, React, and automated testing. Proven track record of delivering client-focused solutions through effective collaboration. Adept at Agile methodologies and proficient with project management tools. Eager to bring my technical expertise, problem-solving skills, and collaborative approach to your team.

Employment History

System Development Engineer, Newtel Limited

November 2024 -

Automating and enhancing systems spanning Newtel, Evovledcoms and Homenet

Consultant, C5 Alliance Jersey Ltd

December 2016 - August 2024

As a Consultant at C5 Alliance Jersey Ltd, I have spent over 7 years solving complex client problems with a client-focused approach to application development. My role involved:

- Specialising in full-stack web development, with proficiency in front-end frameworks and automated testing using Selenium, Playwright, and Appium.
- Developing responsive web applications with .NET MVC, Umbraco, Blazor, and React, leveraging Bootstrap and Tailwind CSS.
- Creating native mobile applications using Xamarin and React Native.
- Building solutions in Azure and implementing advanced caching solutions with Varnish to enhance application performance.
- Applying my expertise in C#, .NET, JavaScript, PHP, MySQL, and SQL to deliver high-quality software solutions.
- Collaborating with clients to gather requirements, design solutions, and implement new features.
- Working closely with colleagues to deliver optimal solutions using tools such as Azure DevOps, Invision, and Figma.

Education

Microsoft

January 2017

- MCSD: App Builder
- MCSA: Web Applications
- MCP: Programming in HTML5 with JavaScript and CSS3
